Bosch – A brand you can trust.

“I have always acted according to the principle that it is better to lose money than trust. The integrity of my promises, the belief in the value of my products and in my word of honour have always had a higher priority to me than a transitory profit.”

- Robert Bosch, 1921

Over 100 years of German engineering excellence in **South Africa**.

From pioneering technological advancements to sustainable solutions, Bosch has been a steadfast partner in driving progress and enriching lives in South Africa

With Bosch you get the best.

That's why we've been named the number one Home Appliances Built-in Brand in Europe.

*Source Euromonitor International Limited; volume sales 2023

Most trusted brand.

In 2023, Bosch is again elected the 'Most Trusted Brand' for Home Appliances in Germany by consumers.

Design

Every detail of every appliance has been carefully designed, where everything just matches perfectly and makes your time spent in the kitchen as enjoyable as possible.

Quality

Bosch appliances offer premium quality, engineered technology and have been produced and tested by our engineers to fully satisfy the highest of standards.

Bosch. Solar power multiplier.

Our range of free standing products are some of the most energy efficient appliances in the world, making them the perfect solution for homes that run off solar systems.

Special Bosch Oven options explained

Soft Close

Gentle closing of the oven door.

4D HotAir

Bake evenly on any level.

Pizza Setting

Ideal for frozen pizzas.

Assist

Select your dish - the oven does the rest.

Telescopic rail

Convenient insertion & removal of baking trays.

Home Connect

Additional features and programs via the Home Connect App.

Airfry

For perfectly fried foods, such as vegetables and chips.

Added Steam

Crispy on the outside, juicy on the inside.

EcoClean Direct

Easy cleaning thanks to a coating that breaks down grease while you bake.

PerfectBake

Perfect baking results thanks to integrated baking sensors.

TFT touchdisplay

Easy, intuitive operation.

PerfectRoast plus

Tender at first bite thanks to the integrated meat probe.

3D Hotair

Bake evenly using up to three levels.

Pyrolytic Self-Cleaning

Automatically cleans the oven without chemicals.

TFT Touch Display Plus

Enlarged TFT touchscreen for easy operation.

Steam Function

Steam your dishes to retain nutrients and vitamins.

*Features may vary depending on models. Please check individual product specifications.

^To cook on all four levels simultaneously, four wire racks are required for best results. For up to three levels, all accessories are suitable, ie. universal tray or baking tray.

Induction Hobs.

Fast and precise cooking. Easy cleaning.
Low energy consumption. This is Induction.

What's inside your dishwasher?

There's much more to a dishwasher than meets the eye. Let's take a peek behind the door and get to know what each part actually does!

Cutlery Drawer

A cutlery tray for cutlery and small dishes

Baking Spray Head

An accessory for washing large items like baking trays.

Top Basket

For placing light crockery, delicate dishes and wine glasses

Bottom Basket

For large crockery, like pots and pans and accessories like cutlery.

Dishwasher Salt Dispenser

Minimises the buildup of limescale deposits on your appliance and dishes.

Filter System

3-stage drainage and filtration system with high filtration rate.

Detergent Dispenser

Dosage compartment for dishwasher tablet, liquid or powder.

Rinse Aid Dispenser

Rinse aid solution reduces water spots on your dishes and gives them a brilliant shine.

DosageAssist

The detergent drops out the detergent dispenser and into a special tray on the top basket where it gets completely dissolved.

Spray Arms

Curved and rotating spray arms jets hot water evenly across a wide surface, reducing water consumption.

Special Bosch Dishwasher options explained:

(Model specific. See model for available functions.)

Home Connect

Additional programs & remote control via the Home Connect App.

SpeedPerfect+

Up to 66% faster washing times, for perfectly clean dishes.

HygienePlus

Extended increased temperature cycle for hygienic cleaning.

Pre-Treatment

Soften tough dirt and pre-treat your dishes.

AutoProgram

Automatically optimised for the best cleaning performance.

EfficientDry

Automatic door opening for better drying results.

Water Champion

The Eco cycle only uses 6.7 litres of water.

VarioDrawer Plus

A selection of our dishwashers will hold up to 14 place settings in one load – perfect for larger households.

ExtraDry

Extra thorough drying option for difficult to dry loads.

Glass 40 Degrees

Protective program for gentle cleaning and drying of glasses.

SilencePlus

Pleasantly quiet operation for a peaceful home.

Cutlery Drawer

Convenient loading of cutlery in top drawer for extra space.

Ecosilence Drive

Energy-saving and silent in operation with a long life span.

PerfectDry

Perfect drying results while saving energy.

Rackmatic

Conveniently adjust the height of your baskets for larger items.

AquaStop

24/7 leak protection, shuts off water flow in case of leaks.

Intensive Zone

Best results for pots & pans thanks to higher spraying pressure and temperature.

Bosch washing machines: Solar power multiplier.

Our range of washing machines are some of the most energy efficient appliances in the world, making them the perfect solution for homes that run off solar systems.

Please consult with your solar specialist for the optimum solution. Bosch takes no responsibility for incorrect use or installation.

Invented for life

BOSCH

Cook #LikeABosch

Introducing the new **Series 8**
Built-in Range from Bosch.

September 2023 South Africa

Bosch – A brand you can trust.

“I have always acted according to the principle that it is better to lose money than trust. The integrity of my promises, the belief in the value of my products and in my word of honour have always had a higher priority to me than a transitory profit.”

- Robert Bosch, 1921

Excellence in design: Award-winning home appliances that redefine quality.

With Bosch you get the best.

That's why we've been named the number one Home Appliances Built-in Brand in Europe.

*Source Euromonitor International Limited; Built-in Major Appliances includes Large Cooking and Refrigeration Appliances, volume sales 2022.

Most trusted brand.

In 2023, Bosch is again elected the 'Most Trusted Brand' for Home Appliances in Germany by consumers.

Design

Every detail of every appliance has been carefully designed, where everything just matches perfectly and makes your time spent in the kitchen as enjoyable as possible.

Quality

Bosch appliances offer premium quality, engineered technology and have been produced and tested by our engineers to fully satisfy the highest of standards.

IF Gold award

At the heart of the new design is the Bosch Digital Ring, bridging the analog and digital worlds and guiding the user through a delightful, digital experience with clear text and beautiful images.

Kitchen design inspiration

60cm oven combined with a 45cm microwave oven and a 14cm warming drawer

60cm oven combined with a built-in coffee machine, 45cm microwave oven and a 14cm warming drawer

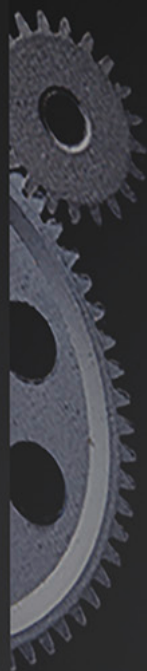

60 cm oven combined with a 45cm microwave oven

Quality and precision.

The new Series 8 range of built-in appliances all come in the same stunning seamless design. The elegant panel with the Digital control ring engraved in the glass and stainless steel handle embossed with the Bosch logo, are made to integrate perfectly into any kitchen environment.

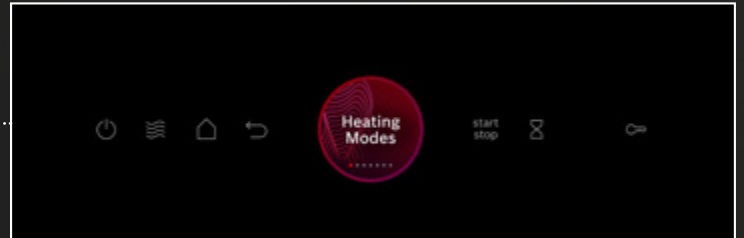

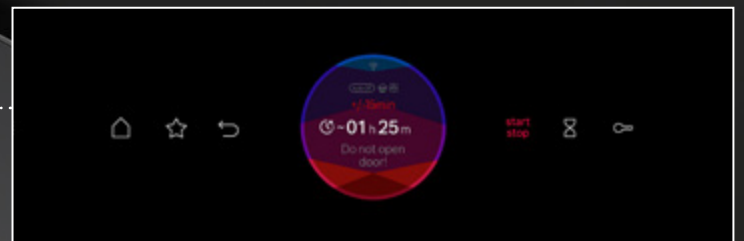

Put your food on display.

Enjoy a complete overview and have full control over your appliances' functions. The innovative user interface makes cooking easier than ever. Adjust any of your oven settings with a slight swipe of the Digital Control Ring supported by a high resolution TFT Touch Display.

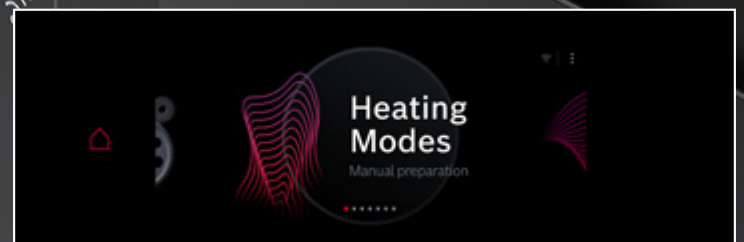

Clear vivid images and info texts take you through each step as you navigate the program options.

Heating
Modes
Manual preparation

Fry this at home.

A great way to enjoy healthy cooking at home. Airfrying requires less fat to create crispy dishes and no further appliance needed on the counter, keeping your kitchen clean and clutter free.

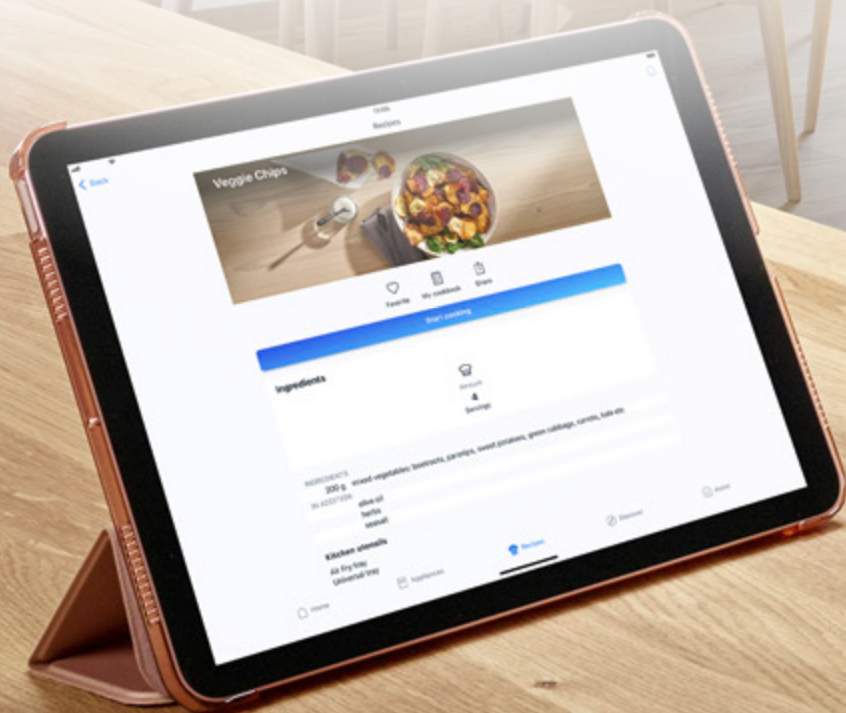

Air Fry Function.

For a variety of perfectly fried foods, such as potato chips and chicken strips, use this function along with the special air fry tray to achieve healthy cooking results.

Cooking tips.

With the Home Connect app, keep up to date with the latest food preparation tips and cooking techniques.

Vegetable fried chips

Ingredients:

- 200g of mixed\ vegetables: beetroots, parsnips, sweet potatoes, green cabbage, carrots, kale etc
- Olive oil
- Herbs
- Sea salt

Tip:

Serve sprinkled with sea salt.

Preparation:

1. Peel and cut the vegetables into thin, 1,5mm slices. The easiest way is to cut with a Bosch MUM (use the cutting accessory with 1.5mm disc thickness). Do not salt vegetables to prevent releasing moisture.
2. Spray the vegetables with a little oil and optionally sprinkle with herbs.
3. Distribute evenly on the Air Fry tray - avoid piling the chips on top of each other; keep them in a single layer as much as possible.
4. After half the cooking time, turn the chips over to prevent them from sticking to the tray and ensure maximum crispness.

Setting procedure:

Air Fry Function, Air Fry tray on level 3 (insert also universal tray on level 1 to prevent dripping), 140°C, Cooking time: 30 minutes.

Intelligent baking.

The new Series 8 ovens, equipped with innovative technology, can predict the exact end time of your recipe, ensuring perfect baking results.

PerfectBake Plus.

Thanks to the built-in baking sensor, which measures the humidity inside your oven and adjusts the end time, you can enjoy the perfect bake.

Recipe World.

With the Home Connect app you can have access to an entire world of exciting recipes. Use your mobile device to select your desired dish and the oven automatically sets the ideal type of heating method, temperature and cooking time, so you can enjoy the perfect meal.

Carrot cake

Ingredients:

- 280g carrots
- 7 eggs
- 70g flour
- 280g ground hazelnuts
- 1 tsp baking powder
- 200g marzipan paste
- 1 tsp ground cinnamon
- 100g sugar
- 0.25tsp salt
- 100g confectioner's sugar
- 25g water
- 100g apricot jam
- 100g sliced almonds
- 12 marzipan carrots (for decorating)
- butter (for greasing)
- flour (for dusting)

Preparation:

1. Preheat the oven to 170°C top and bottom heat. Grease spring form pan with butter. Wash and peel the carrots, and set aside. Separate eggs.
2. Mix flour, hazelnuts, and baking powder in a large bowl and set aside.
3. Mix marzipan with egg yolk and ground cinnamon with the hand blender until smooth. Next, transfer to a bowl. Beat the egg whites with sugar and a pinch of salt until stiff peaks form.
4. Then gradually fold it into the marzipan mixture. Then, slowly add the flour mixture and grated carrots. Mix until well combined.
5. Transfer to the greased spring form pan. Bake for approx. 40 min. Test with a skewer if the cake is done. Let cool.
6. For the icing, sift powdered sugar into a large bowl, gradually add water and whisk together until thick but still pourable. Once the cake has cooled completely, cover the cake with apricot jam using an offset spatula, then add the frosting evenly. For decoration, top with carrots and decorate the edges of the carrot cake with sliced almonds. Enjoy!

Timing is everything.

For roast beef, fish and chicken, timing is everything. PerfectRoast Plus takes the guesswork out of knowing when your dishes are perfectly tender. The meat probe uses three measuring points to check the temperature of your dish. When the selected internal core temperature is reached, your dish is roasted to perfection.

PerfectRoast Plus.

From medium rare to well done, thanks to artificial intelligence and the Meat Probe that measures and suggests the internal core temperature of your dish, timing your meals to perfection is easy.

Favourites.

To avoid having to enter the same settings for your favourite dish over and over, just save them under favourites so that you can access the recipe again by using your Home Connect app.

Roast Chicken with Herb Butter

Ingredients:

- 60g Butter, Soft
- 1 Corn-Fed Chicken (1.6kg)
- 1 Tablespoon Olive Oil
- Salt
- 3 Tablespoons Frozen Italian Herbs without Onions
- Pepper, Freshly Grounded
- Sweet Paprika Powder

Tip:

Serve your chicken the Italian way with a side of risotto. Be sure to prepare it al dente – creamy and soft, yet firm to the bite.

Enjoy your dish with a dash of parmesan flakes. Bon Appetit!

Preparation:

1. Beat the butter with an egg\ whisk until creamy. Add the olive oil and herbs and mix. Season well with salt, pepper and paprika.
2. Rinse the chicken in cold water and pat dry with a kitchen towel. Season it with salt and pepper both inside and out. Carefully peel back the skin from the meat and spread the herb butter between the skin and breast meat.
3. Place the chicken into the universal pan with the breast facing down and cook as indicated.
4. Flip the chicken after approximately 30 minutes and roast until done.

Setting procedure:

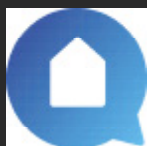

Select AutoPilot Programme „P13“, set the weight of your chicken, and the programme will start automatically.

Perfect form and function.

Whether you want to quickly roast, bake or warm up a dish – with the intelligent combination of conventional heating modes and easily activated microwave, you can achieve perfect results in the shortest possible time.

Our Series 8 warming drawers can do much more than just keep food and plates warm. They're also perfect for slow-cooking meat, defrosting frozen foods, melting chocolate, drying fruit and letting dough rise.

Home Connect for warming drawers.

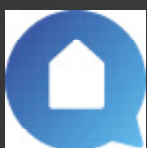

Simply control your warmer draw through the Home Connect app, which monitors the heating program, sets a timer and personalises your favourite setting.

Espresso and cappuccino, 24/7.

With the Series 8 built-in coffee machine, you can treat yourself and your guests to any beverage at the touch of a button, any time of the day. Bosch technology guarantees a full bodied aroma and perfect crema for every cup. For coffees as delicious as those brewed in your favourite coffee shop.

Favorites

With the Home Connect app, simply use your mobile device to save up to 30 individual coffee preferences. Then sit back and let the machine take over.

Cooking options explained.

4D HotAir*

Thanks to 4D HotAir, you can place your food on any shelf from level one to four, and the results will be consistently perfect. The rotating fan alternates its direction during cooking to distribute heat evenly on every level. And for reliable results “top-to-bottom”, you can also bake and roast on up to four different levels simultaneously.^

HotAir Gentle

Do you want to save energy while cooking? With HotAir Gentle, we've improved the heating mode that's most commonly used in households. The fan distributes the heat evenly throughout the oven cavity, which can help save energy. When baking on a single level – such as small baked goods, cakes in tins or cakes on a baking tray – no preheating is necessary.

Top and bottom heat*

Uses both the upper and lower heating elements. Heat travels to the centre of the oven, which is the best position to obtain the selected temperature. Suitable for traditional baking and roasting, and offers the best results for cakes with moist toppings.

Top and bottom heat Eco*

In addition to the Top and bottom heat function, selected Series 8 ovens feature a new eco-friendly mode, which supports cooking on a single shelf for energy efficient cooking. Prepare perfect sponges, pound cakes, delicate pastries and bread rolls while saving valuable energy.

Full-width Grill.

Especially suited for grilling large quantities – for example, steaks, sausages, fish or vegetables.

Intensive heat*

Combines the top element with a more powerful bottom heating element that is perfect for crispy bases and baking in tins.

Home Connect

Home Connect allows you to stay on top of your game by giving you easy access to a wide variety of innovative cooking and meal preparation techniques - all from the comfort of your mobile device.

Hot air grilling*

Achieve rotisserie-style cooking for meat and poultry. The grill and fan alternate, which produces even and crisp cooking results.

Air Fry. **NEW**

Cook until crispy, on one level with little fat. Especially suitable for food that is usually fried in oil, e.g. chips. The fan circulates heat from the grill element around the food at high speed. The exhaust air is extracted more intensively from of the cooking compartment.

Crisp Function.

Give your dish a final golden crisp thanks to the crisp function, which removes moisture directly from the oven cavity during the roasting or baking process.

Half-width Grill.

Especially suited for grilling smaller quantities – including steaks, sausages or toast, or for broiling.

Pizza setting*

Create crispy pizzas or give any dish that extra heat that's needed from underneath by using a combination of heating elements.

Keeping warm*

This function keeps dishes warm – for example, when you're cooking multiple courses.

Slow cooking*

For gentle and slow cooking of seared, tender pieces of meat in ovenware without a lid.

Preheat ovenware*

A new feature that is useful for pre-heating ovenware and even dinnerware.

Rapid heating*

With rapid heating, you can shorten the heat-up time for selected heating functions, including 4D HotAir and Top and bottom heating.

3D HotAir

Cook on up to 3 levels simultaneously with even heat distribution.

Defrost*

Perfect for gentle defrosting of meat, poultry, bread and much more.

Reheating*

For plated meals and baked items. Cooked food is gently reheated. The steam ensures the food does not dry out.

*Features may vary depending on models. Please check individual product specifications.

^To cook on all four levels simultaneously, four wire racks are required for best results. For up to three levels, all accessories are suitable, ie. universal tray or baking tray.

Coffee options explained.

AutoMilk Clean

Say goodbye to the hassle of cleaning the milk system each day. Fully automatically, AutoMilk Clean steam-cleans the system, keeping it clean and hygienic. By thoroughly cleaning the milk system after each drink, it saves you from having to do it every day.

CoffeeWorld

Discover the delicious taste of international coffee specialties at the touch of a button. With up to 20 coffee variations from 8 countries, simply choose from a variety of coffee specialties in the Home Connect app.

AromaSelect

The perfect profile for every individual taste. With Aroma Select, you can adjust the strength of the coffee to your personal preferences. Simply choose between three different aroma profiles: mild, balanced or distinctive

2nd-5th years include functional parts, however, labour is payable by customer.

***Selected Built-in Appliances**

Register
my appliance

We advise that you register your appliances so that we can contact you about any product updates.

Visit MyBosch www.bosch-home.com/za/mybosch for more information. You can also call Bosch directly to register your appliance.

Guarantee Conditions*

Guarantee is not valid if appliance is used in an industrial application.

Total guarantee period: 3 yrs from date of purchase for freestanding appliances and 5 yrs for built-in appliances.

Transport damages will only be accepted 7 days after delivery to end user or contractor working on behalf of end user (kitchen company, building contractor).

- First yr full guarantee on parts and labour – excluding very fragile parts i.e. glass, plastic, light bulbs.
- Second yr guarantee on all functional parts only: electronics, timers, switches, pumps, motors, compressors, locks, valves, thermostats, fan, plus labour to repair or replace.
- Third yr guarantee on all functional parts only: electronics, timers, switches, pumps, motor, compressor, locks, valves, thermostats.

After guarantee expires, customer must pay a current call out fee towards labour costs.

Condition governing appliance service

1. A guarantee claim ceases once repair or work is undertaken by a person not entitled by BSH to do so or if the appliance is provided with spare parts, attachments or accessories that are not original, therefore causing damage.
2. The guarantee is given in such a manner that defective parts are repaired free of charge or – and this is BSH choice – replaced by perfect parts.
3. A claim under guarantee does not cause an extension of the guarantee period nor does it start a new guarantee period.
4. If BSH refuses repair or repair fails and the end user so requires, a replacement of equal value is supplied free of charge within the above guarantee period.
5. These conditions of guarantee are applicable to appliances purchased in South Africa. If appliances are taken abroad or across the border please check with the our Customer Service team for conditions of guarantee.

* Valid from February 2023

Service you can rely on.
